

CONFIRMATION

Radio Type Approval / Exemption in Chile

Dear Sir/ Madam,

herewith, 7layers GmbH states, that Chile authority SUBTEL issued certificates for this type of products* until DEC 2018 but since 2019 they are no longer do.

* as components 013854, FS19, FS197, RSB19, manufactured by **HELLA GmbH & Co. KGaA**

By national regulation, these components are exempted from national homologation as long the technical preconditions are fulfilled like defined in **NORMA TÉCNICA DE EQUIPOS DE ALCANCE REDUCIDO (Resolución Exenta N° 1985 de 2017, modificada por Res. 1517 de 2018)**, see attachment *Chile_Refundido Res 1985 de 2017 utima.pdf*

In the English translation of this regulation document, you can find following relationship.

Mod. **013854**:

Article 1 b) b.1) Remote controls to open doors 117 to 142.2 kHz

Mod. **FS19, FS197** (UHF):

Article 1 a) Portable transceivers 433.05 to 434.79 MHz

Mod. **FS19, FS197** (UWB):

Appendix 1, Item 2.7 Portable communication equipment 3100 to 10600 MHz

Mod. **RSB19**:

Appendix 1, Item 3.4 Radars on board vehicles 1610 to 22000 MHz

This means that the components **013854, FS19, FS197** and **RSB19** (parts of system 37W with LF-, UHF- and UWB-technology) are exempted to be type approved in Chile.

In case you have any further question, please do not hesitate to contact us.

Best regards,
